IV	PP to ensure that CER Plan get approved from Municipal Commissioner / District Collector	CER Plan has been approved.
V	PP to ensure to comply with the conditions stipulated in the OM issued by MoEF&CC dated 9 <sup>th</sup> Aug 2018.	All the applicable conditions has been complied as per MoEF&CC OM dated 9 <sup>th</sup> Aug 2018.
	<b>General Conditions</b>	
I	PP to achieve Zero Liquid Discharge; PP shall ensure that there is no increase in the effluent load to CEPT	NA
II	No additional land shall be used /acquired for any activity of the project without obtaining proper permission.	Agreed. Permission will be obtained as and when need arise.
III	PP to take utmost precaution for the health and safety of the people working in the unit as also for protecting the environment.	<p>The PP is providing safety equipment such as shoes, mask, safety hand gloves, goggle, safety helmet etc during the working. The facility of First Aid treatment, stretcher during any emergency is available in the site office.</p> <p>Also the workers are insured with Workmen Compensation Policy under Workmen Compensation Act.</p> <p>Huge tree plantation has been made in an around the lease area to prevent air pollution. Water sprinkling in lease area, village road is being done frequently for dust suppression.</p> <p>Air , Water and Noise monitoring is being regularly carried out. Report is being regularly submitted to MPCB.</p>
IV	Proper housing keeping programmers shall be implemented.	Proper housekeeping program are being regularly implemented as and when required.
V	In the event of failure of any pollution control system adopted by unit, the until shall be immediately put out of operation and shall not be restarted until the desired efficiency has been achieve.	<p>Not Applicable.</p> <p>This is small manually operated opencast mine having no use of machineries, also there is no any plant installed there. Environmental parameters (air, water, noise) are being monitored through outsourcing consultant.</p>
VI	A stack of adequate height based on DG set capacity shall be provided for control and dispersion of pollutant from DG set.(if applicable).	NA

VII	A detailed scheme for rainwater harvesting shall be prepared and implemented to recharge ground water.	A scheme of rainwater harvesting has been prepared and implemented with direction of Central Ground Water Authority.  NOC has been obtained from CGWA, New Delhi and is valid till 13.05.2026 . Copy enclosed as <b>Annexure 1</b>
VIII	Arrangement shall be made that effluent and storm water does not get mixed.	For effluent water septic tank with soak pit has been constructed and for storm water, rainwater harvesting structure has been prepared and maintained as per guideline of CGWA.
IX	Periodic monitoring of ground water shall be undertaken and result analyzed to ascertain any change in the quality of water. Result shall be regularly submitted to the MPCB	Monitoring and analysis of water is being done twice in a year in post monsoon(Nov) and Pre-monsoon period (May)  No heavy metals, coli forms present in the borewell water.  Report is being submitted regularly to the MPCB. Report attached as <b>Annexure -2</b>
X	Noise Level shall be maintained as per standards. For people working in the high noise area, requisite personal protective equipment like earplug etc. shall be provided.	Agreed. Noise level is within a limit as per standard. Earplug has been provided to the workers.  <b>Permissible limit for Noise – 75 dBA, Result –lowest -47.5 dBA , Highest -52.4 dBA</b>  <b>(Kindly refer Annexure -2)</b>
XI	The overall noise levels in and around the plant are shall be kept well within the standards by providing noise control measures including acoustic hoods, silences , enclosure etc on all sources of noise generation . The ambient noise level shall be confirm to the standard prescribed under Environment (Protection )Act ,1986, Rules 1989.	Not Applicable. As this is manually operated mine. No plant is installed at mine site. However, Noise level is within a limit as per standard prescribed under Environment (Protection) Act ,1986, Rules 1989.
XII	Green Belt shall be developed and maintained around the plant periphery. Green Belt development shall be carried out considering CPCB guideline including selection of plant species and in consultation with local DFO / Agricultural Dept.	Green belt has been maintained within and around the mining lease area. 200 trees has been planted within and outside the lease area. At present near about 570 tress are present within the lease hold area. Photographs showing green belt is enclosed as <b>Annexure -3</b>  Plantation programme is being carried out every year in consultation with Grampanchayat.
XIII	Adequate safety measure shall be provided to limit the risk zone within the plant boundary, in case of an accident . Leak detection devices	Not Applicable. This is manually operated opencast mine.

	shall also be installed at strategic places for early detection of warning.	
XIV	Occupational health surveillance of the workers shall be done on regular basis and record maintained as per Factories Act .	Health check of all the workers are being done on regular basis and record is being maintained.
XV	The company shall make the arrangement for protection of possible fire hazard during manufacturing process in material handling.	Only manual breaking of hard boulder of iron ore is done here. However to prevent fire hazard , fire safety cylinder is installed at mine site.
XVI	The project authorities must strictly comply with the rules and regulations with regard to handling and disposal of hazardous wastes in accordance with the Hazardous Waste (Management and Handling) Rules 2003 (amended) . Authorization from MPCB shall be obtained for collections/ treatment /storage/disposal of hazardous wastes.	NA, As there is no any hazardous waste is generating from this mine due to manual working.
XVII	Regular mock drills for the on site emergency management plan shall be carried out. Implementation of changes / improvements required, if any. In the onsite management plan shall be ensured.	Regular mock drills for on site emergency management plan is being regularly carried out.
XVII I	A separate environment management cell with qualified staff shall be set up for implementation of the stipulated environmental safeguards.	Environment Management Cell has been set up. Name of officers are as follows.  1) Shri Nitin Wath – Agent (Mines) 2) Shri Jaiprakash Singh – AGM (Mines) 3) Shri R. K. Shrivastava – DM (Mines) 4) Shri Sushant Bhure – DM (Mines) 5) Shri R. H. Borkar – Supervisor (Mines)
XIX	Separate funds shall be allocated for implementation of environmental protection measures / EMP along with item-wise break up. These cost shall be included as part of project cost. The funds earmarked for the environment protection measures shall not be diverted for other purpose and year wise expenditure should reported to the MPCB and this department.	Separate funds have been allocated for implementation of environmental protection measures. The funds earmarked for the environment protection measures will not be diverted for any other purpose. Expenditure on environment will be reported to MPCB and related department. Working is being carried out according to CER Plan.
XX	The project management shall advertise at least two local news papers widely circulated in the Region around the project , one which shall be in the Marathi language of the local concerned within 7 days of issue of EC letter , informing that the project has been accorded	Advertisement regarding grant of EC in two local newspaper i.e Hivada (Main) in English language and in Sakal Media Pvt Ltd (Gondia edition ) in Marathi language had been published on 30.01.2020.

	environmental clearance and copies of clearance letter are available with the Maharashtra Pollution Control Board and may also be seen at <a href="http://ec.maharashtra.gov.in">http:// ec.maharashtra.gov.in</a>	
XXI	Project management should submit half yearly compliance report in respect of the stipulated prior environment clearance terms and conditions in hard and soft copies to the MPCB and this department, on 1 <sup>st</sup> June and 31 <sup>st</sup> Dec. of each calendar year.	Agreed. Half yearly compliance is being submitted.
XXII	A copy of the clearance letter shall be sent by proponent to the concerned Municipal Corporation and the local NGO , if any , from whom suggestions, representations , if any were received while processing the proposal. The clearance letter shall be put on the website of the Company by the proponent.	A copy of EC letter has already submitted to the Chief Executive Officer, Nagar Parishad, Amgaon for information. Receipt of letter already enclosed with previous compliance report.  EC letter already uploaded on the company website. <b>Link <a href="https://www.necoindia.com">https://www.necoindia.com</a></b> <b>Under the caption Business – Mining –Dhobitola Iron Ore Mines</b>
XXII I	The proponent shall upload the status of compliance of the stipulated EC conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the Regional office of MoEF, the respective Zonal Office of CPCB and the SPCB The criteria pollutant level namely SPM,RSPM,SO2, NOx(ambient levels as well as stack emission)or critical sectoral parameters , indicated for the project shall be monitored and displayed at a convenient location near the main gate of the company in the public domain.	The data on Ambient air, noise and water quality is displayed at main gate of the Mine and also displayed on Company's website (Please refer above link)  The data is being submitted regularly to the SPCB.
XXI V	The project proponent shall also submit six monthly reports on the status of compliance of the stipulated EC condition including results of monitored data (both in hard copies as well as by email) to the respective Regional office of MoEF , the respective zonal office of CPCB and the SPCB.	Agreed. Six monthly compliance reports is being submitted regularly regarding compliance of the stipulated EC conditions.
XXV	The environmental Statement for each financial year ending 31 <sup>st</sup> March in form –V as is mandated to be submitted by the project proponent to the concerned State Pollution Control Board as prescribed under the	Environment Statement has been submitted online on 05.09.2024. (Annexure-4)  Status of compliance of EC condition has been uploaded at Company website. (Kindly refer given

	Environment (Protection) Rule ,1986 as amended subsequently , shall also be put on the website of the company along with the status of compliance of EC conditions and shall also be sent to the respective Regional office of MoEF by email.	link of point no. XXII)
XXV 1 1	The validity period of the EC will be for 7 years as per MoEF&CC Notification dated 29 <sup>th</sup> April 2015, but limited to period of lease.	Agreed
2	No hill cutting should be allowed during the quarrying. No aquifers should be disturbed either by blasting or by quarrying	Not Applicable.
3	Blasting crushing and transportation of crushed material should be carried out under covered conditions to avoid any kind of dust pollution.	NA.  No blasting is proposed.
4	PP shall employ dust suppression measures by use of water sprinklers, foggers etc.	Water sprinkling is being done regularly to prevent dust suppression.
5	TT PP shall undertake 2 rows of tree plantation along the lease boundary. Dust absorbing trees shall be planted.	Huge tree plantation has been made along the lease boundary.
6	Quarrying allowed only in the recharge zone of hills, not run in run off or storage zone. For this purpose, GSDA should be involved to carry out intensive geophysical survey to identify such recharge zone where quarrying can be allowed.	NA
7	The mining plan shall be approved first before initiating any mining operation.	Mining Plan has been already approved vide IBM letter dated 17.02.2023. Copy already submitted with previous compliance report.
8	Discharge of sewage from quarry site should be strictly controlled.	NA
9	The quarries to maintain benches of 60 slope in the cut, 6 m depth in cut and 6 m for the bench.	Agreed. Working is as per the mining plan approved by IBM.
10	No dumping of material shall be allowed in the water resources of Nallah.	NA. There is no Nallah present in the nearby mine site.
11	No quarrying should be allowed in the runoff zone of hilly areas.	NA
12	After mining extraction is completed, the	Agreed and will be complied after closure of Mine.

	existing pits on site must be filled up and the closure must be supervised and certified by the District Mining Officer.	
13	No quarry shall be allowed within safe distance from any habitation or human activity.	Safety zone has been maintained.
14	District Collector will take Bank Guarantee of Rs 2.00 lacs or up to 2 % of annual royalty , whichever is higher for the given lease from the lease holder to ensure the compliance of the conditions stipulated. In case of violation of stipulated conditions by project proponent bank guarantee so obtained shall be forfeited and legal action under the law should be initiated against such project proponent.	The Bank Guarantee for Rs 2.0 Lacs has already been submitted to the Collector, Gondia,
15	It shall be ensured that there is no fauna dependent on the areas close to mining for its nesting.	There is no fauna found in this area.
16	To prevent dust / particulate matter pollution, the lease holder shall take up tree plantation in an area 10 m from the boundary of the lease area and also on either side of the road leading to the quarry from the already surfaced road.	Tree plantation programme is being carried out every year in consultation with Grampanchayat. Plantation has been carried out along the village road, public utility places etc.  Near about 570 trees are present within the lease hold area.
17	District Collector to ensure that the provisions stipulated in Maharashtra Minor Mineral Extraction (Development and Regulation) Rule shall be strictly adhered to	Mining is being carried out according to the mining plan approved by IBM.
18	The configuration of benches should be 60 degree slope in the cut , 6 m depth for cut and 6 m width for the bench. PP shall ensure that no quarrying is carried out in forest or zudpi jungle. No water sources shall be affected due to quarrying activity.  All labour engaged In quarrying will be provided with protective gears like mask, helmet, boots etc.	Working is as per the Mining Plan approved by IBM.  All the labours working at mine site are equipped with helmet, goggles, dust mask, safety shoes etc.
19	District Collector to ensure that distance between one lease area and another lease area or cluster of lease area is more than 500 m.	NA

20	Project proponent to ensure that vehicle transporting stone should not be overloaded beyond stated capacity, also to ensure that there is no violation of the Hon'ble NGT, Hon'ble Supreme Court order given in related matters.	Transporting vehicles not allowed to be overloaded. Care is being taken so that there is no violation of the Hon'ble NGT, Hon'ble Supreme Court order given in related matters.  Undertaking already submitted.
21	PP to prepare Mine Closure Plan and get it approved by the competent authority, PP will be held responsible personally for non compliance of the conditions stipulated in EC and shall be liable for legal action under Environment (Protection) Act of 1986.	Agreed and will be submitted during mine closure.
22	Transport of stone should by vehicles which are properly covered with Tarpaulin and it should not be overloaded.	Agreed. The Iron Ore is being transported by vehicle covered with Tarpaulin. Vehicle is not allowed to be overloaded.
23	The leaseholder shall undertake adequate safeguard measures during extraction of material and ensure that due to this activity , the hydro geological regime of the surrounding area is not affected. The depth of quarrying should be above the level of aquifers to avoid the contamination / degradation of water quality of aquifers. Regular monitoring of ground water level quality shall be carried out around the mine lease area during the mining operation. If at any stage it is observed that the ground water table is getting depleted due to mining activity; necessary corrective measures shall be carried out. District Collector/ Mining Officer shall ensure this.	Agreed.  The safeguard measures are undertaking during extraction of material and care has also been taken so that hydro geological regime of the surrounding area is not affected.  Monitoring of ground water level and their quality is being checked regularly and report is being submitted to CGWB as and when required.
24	Effective safeguards such as regular water sprinkling shall be carried out in critical areas prone to air pollution and having high level of particulate matter such as loading and unloading point and all transfer points. Water sprinkling shall also be carried out on haul roads. It should be ensure that Ambient Air Quality parameters conforms to the norms prescribed by the Central Pollution Control Board in this regard. The status of implementation of measures taken shall be reported to environment department.	Agreed. Regular water sprinkling is being carried out on loading / unloading point, haul road etc to prevent air pollution by dust.  Ambient air quality monitoring and analysis is being carried out regularly and found within permissible limit. <b>(Kindly refer Annexure 2).</b>  Permissible limit for PM <sub>10</sub> – up to 100 ug/m <sup>3</sup> Result (Highest) – 67.2 ug/m <sup>3</sup> , (lowest) - 61.4 ug/m <sup>3</sup>  Permissible limit for PM <sub>25</sub> – up to 60 ug/m <sup>3</sup> Result (Highest) – 21.8 ug/m <sup>3</sup> , (lowest) - 19.2 ug/m <sup>3</sup>

		<p>Permissible limit for SO<sub>2</sub> – up to 80 ug/m<sup>3</sup>  Result (Highest) – 13.6 ug/m<sup>3</sup> ,  (lowest) - 9.3 ug/m<sup>3</sup></p> <p>Permissible limit for NO<sub>x</sub> – up to 80 ug/m<sup>3</sup>  Result (Highest) – 15.3 ug/m<sup>3</sup> ,  (lowest) - 11.2 ug/m<sup>3</sup></p>
25	<p>This environmental clearance is issued subject to obtaining NOC from Forestry and Wildlife angle including clearance from the standing committee of the National Board of Wildlife as if applicable &amp; this EC does not necessarily implies that Forestry and Wildlife Clearances granted to the project which will be considered separately on merit.</p>	<p>NA.  Forest Clearance has been already obtained for this project.</p>

Sub.: Submission of data of Environmental Quality Monitoring and Analysis regarding  
Dhobitola Iron Ore Mine(2.61 Ha), Distt. Gondia, Maharashtra.

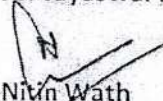

Sir,

The Company is operating Dhobitola Iron Ore Mine (2.61 Ha) in Tahsil Amgaon, Distt. Gondia, Maharashtra. Recently we have monitored quality of Environmental Parameters i.e Air, Noise and Water and their analysis has been done for the Pre Monsoon Season (May).

The analysis report regarding Air, Water and Noise is enclosed herewith for your kind information.

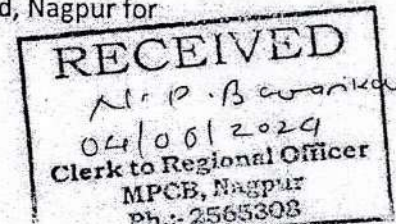

Thanking You.

Yours Faithfully,  
For Jayaswal Neco Industries Ltd

  
Nitin Wath
